For which reason did you choose not to spend study or research periods abroad during your PhD studies? (Multiple answers are possible)

	a.v.
Courses and seminars provided in Bocconi are adequate and do not require additional experience in institutions	9
Scholarship amount (even with 50% integration) did not allow me to leave	3
I reside outside Italy and studying in Bocconi is an experience abroad in itself	2
I was not authorized by PhD Faculty	2
I did not find an institution I was interested in or which was available to host me	1
As I did not have a scholarship, I would not receive financings for activities abroad	1
I was not aware of this opportunity	1
Other: (up to 300 characters)	18
COVID-19	11
Personal/family reasons	4
I was struggling to write my PhD thesis and paid no mind to visiting periods.	1
Held remotely only.	1
As I spent 4 years abroad prior to PhD (in 3 different countries) my desire was to be located in one place throughout the PhD. I had enough experiences abroad already.	1
