Research Interests

Macroeconomics, International Finance, International Trade, Development Economics

Work in Progress

"Does the Belt and Road Initiative (BRI) Impact Growth and Debt Burden? Evidence from South Asia" (2020).

- Employed an unbiased, data driven method to capture the dynamic effects of the BRI and therefore produce superior counterfactuals employed in previous comparative case studies.
- Utilized quantitative results and growth theory to emphasize the importance of a transparent nontrivial economic environment in realizing welfare gains delivery through interconnection.

- Contributed new answers to puzzles and consequences of BRI in a heterogeneous background.

Work Experience

Chinese University of Hong Kong, Shenzhen   **Dec.2020-Jun.2021**

Research Associate – Economics

- Provided research assistance to Prof. Ming Li in Political Economy and the Chinese Economy, participated in projects on firms' political connections, processed firm-level data, and presented during seminars. Successfully ensured that all requirements were promptly fulfilled in a challenging and team-oriented environment.
- Provided teaching assistance to Prof. Ming Liu on Data Analytics and Decision Making.

One Connect (Ping An Group - Fintech), Shanghai   **Apr. 2019 - Jul. 2019**

Strategic Consultant

- Analysed domestic and foreign markets and strategies of FinTech projects and Open Banking.

China Securities Co., Ltd., Beijing   **Mar. 2018 - Jul. 2018**

Macroeconomics Research

- Wrote reports about '2018 China-United States Trade War', published on *Investment Strategy Study*.
